**Subject:** For Your Review: revised ORD Pb slides for 6/1 SAB  
**Importance:** High

Dear Colleagues, thank you again for providing your "success story" slides for the 6/1 ORD briefing to the EPA SAB. Attached is the latest draft version with all of them together, edited by me and Andrew Geller (for initial ORD IO review) for more consistency of formatting, density of text, and high level impact content. Please review these latest draft slides by noon tomorrow and let me know if there needed critical edits. Also, please confirm that your Lab/Center management approves these latest revised slides; NERL will be clearing this ORD presentation in STICS and we want to make sure the individual slides provided by the other L/Cs have been approved as needed.

I plan to attach the latest draft presentation as an FYI for the 1pm ORD Pb coordination call tomorrow. There is more time for you to send me key points for speaking notes so your science can be represented as well as possible on 6/1 (and for communications folks to help with final slide formatting tweaks), but as the SAB wants to post the slides next week I need to share them with my management asap tomorrow and with Jennifer Orme-Zavaleta/ORD IOAA by this Thursday afternoon.

Please let me know if you have any questions.

Thank you,  
Valerie
